Swatch Campus initiatives

Waste Disposal-Awareness

Save Paper -Students of MCA department are encouraged to print their projects back-to-back to save paper. Faculty are also encouraged to print only if necessary.

Clean and green campus initiatives

Waste Management

- Waste is generated out of all sorts of routine activities on campus, including garden waste, garbage, paper, e-waste, etc. The generated waste is segregated at the campus. As per norms, green and blue garbage bins are provided within the campus for wet and dry waste, respectively. There are 6 big garbage bins, and 46 small garbage bins are provided in the campus common area and staff rooms. The segregated waste is handled according to their categories.
- The institute follows plastic waste management practices. The collected waste is segregated and sent to an authorized plastic recycler in regular practice. The Nerul Campus has an MoU with **Stree Mukti Sangathan**, an NGO which works in the area of plastic waste management dispose the plastic waste by recycling with support of Bisleri Ltd. The SIES management is also having a policy for the complete ban of single use plastic as per the Plastic Waste Management Rule amendment, 2022.
- The institute has MOU with the Rotary club for E-Waste Management

Green Campus

- The college attempts to maintain an eco-friendly atmosphere on campus; the number and variety of plant species help to maintain an eco-friendly ambiance. There are 42 different types of plants on campus. The college has undertaken various activities like plantation and beautification of campus through various drives.
- There is a continuous servicing of the water coolers which is used by the staff and the students.
- There is a tie up with for cleaning and maintenance of campus.
- The students are also constantly guided by the faculty and staff on keeping the institute clean.
- There is no plastic policy.
- Restricted entry of Automobiles
- Tree plantation and protection on campus is encouraged.
- No Honking on campus
- Staff and faculty are guided on minimum use of paper.
- There is a Green Campus policy.
- The Institute also undertakes Green Campus Audit which helps in balancing the anomalies if any.
